FINANCIAL POLICY

Insurance Copays, Deductible and Coinsurance– are due at the time service. Your insurance is a contract between you and your insurance company. You are responsible for items not covered by your insurance plan. If you have a balance on your account, we will send you a statement. Your statement is expected to be paid in full within 30 days after receipt of the statement date, unless other arrangements have been approved in writing. If payment is not received within 30 days, it is considered past due.

Past Due Accounts: If your balance becomes past due, we will take necessary steps to collect this debt. If we must refer your account to a collection agency, you agree to pay all the collection costs, which are incurred. If we must refer the collection balance to a lawyer, you agree to pay all lawyers' fees, which we incur, plus all court costs.

Waiver of Confidentiality: You understand if this account is submitted to an attorney or collection agency, if we must litigate in court, or if you're past due status is reported to a credit reporting agency, the fact that you received treatment at our office may become a matter of public record.

Returned Checks: There is a fee (currently \$25) for any checks returned by the bank. If we received more than one returned check on an account you will be required to pay with a credit card, money order or cash.

Copying of Records: Should you need copies of your medical records you will need to request copies in writing and pay a fee of \$30.00 for retrieval of records and processing the request, including copies for the first 10 pages; \$1.00 per page for pages 11-60; \$.50 per page for pages 61-400; and \$.25 per page for pages over 400.

Effective Date: Once you have signed this agreement, you agree to all the terms and conditions contained herein and the agreement will be in full force and effect.

I hereby state that I have read and understand the Financial Policy given to me by Taylor Family Chiropractic.

Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as “informed consent” and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an “arterial dissection” that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately, a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.
